

JOURNAL OF CELLULAR AND COMPARATIVE PHYSIOLOGY

Board of Editors

ARTHUR K. PARPART, Managing Editor
Princeton University

W. R. AMBERSON
University of Maryland

D. W. BRONK
The Rockefeller Institute

M. H. JACOBS
University of Pennsylvania

H. F. BLUM
National Cancer Institute

L. B. FLEXNER
University of Pennsylvania

D. MARSLAND
New York University

F. BRINK
The Rockefeller Institute

E. N. HARVEY
Princeton University

D. MAZIA
University of California

VOLUME 3
FEBRUARY, APRIL, JUNE

CONTENTS

No. 1 FEBRUARY 1959

D. R. SHANKLIN. Studies on the <i>Fundulus</i> chorion	1
HORACE N. MARVIN. Evidence of erythrocyte incompatibility in pigeons of an inbred strain using radiochromium-tagged cells. One figure	13
E. C. ZEEB AND W. H. MCSHAN. Trehalase in the thoracic muscles of the woodroach, <i>Leucophaea maderae</i> . Four figures	21
E. K. HALL. Atropine effects on the embryonic rat heart. Two figures	31
JOHN S. COOK AND HAROLD F. BLUM. Dose relationships and oxygen dependence in ultraviolet and photodynamic hemolysis. Three figures	41
CLYDE MANWELL. Alkaline denaturation and oxygen equilibrium of annelid hemoglobins. Four figures	61
CLYDE MANWELL. Oxygen equilibrium of <i>Cucumaria miniata</i> hemoglobin and the absence of the Bohr effect. One figure	75
LEONARD B. KIRSCHNER. The interaction between sodium outflux and the sodium transport system in the frog skin.	85
ARISTID LINDENMAYER. Oxidative metabolism and absorption spectra of anaerobically grown yeast. Manometric data and absolute absorption spectra. Two figures	93
OTTO H. SCHERBAUM, THOMAS W. JAMES AND THEODORE L. JAHN. The amino acid composition in relation to cell growth and cell division in synchronized cultures of <i>Tetrahymena pyriformis</i> . Five figures	119
<i>Comments and Communications:</i>	
JOSEPH JIN CHANG AND WALTHER HILD. Contractile responses to electrical stimulation of glial cells from the mammalian central nervous system cultivated <i>in vitro</i> . One figure	139
ARTHUR W. MERRICK AND KENNETH L. FITCH. Effects of ovulation upon the glycogen content of the frog oviduct.	145
F. A. NEVA, P. WIRTH AND D. E. WEGEMER. Composition of bovine amniotic and allantoic fluids used as cell culture medium. One figure	153
PAUL G. LEFEVRE. Penetration of glucose into the human red cell: the recent attack on the carrier hypothesis. Two figures	163

No. 2 APRIL 1959

BERNARD GREENBERG. House fly nutrition. I. Quantitative study of the protein and sugar requirements of males and females. Two figures ..	169
FRANK H. JOHNSON AND MARY M. JOHNSON. The luminescent flash of polycirrus. Four figures	179

CONTENTS

JAY BOYD BEST. The inference of intracellular enzymatic properties from kinetic data obtained on living cells. III. Mode of glucose entry into the yeast cell-elaboration by minimized χ^2 estimation and uranium poisoning. One figure	187
JULIUS J. COHEN. The capacity of the kidney of the marine dogfish, <i>Squalus acanthias</i> , to secrete hydrogen ion. One figure	205
GLORIA K. ROLLE, A. CECIL TAYLOR AND HARRY A. CHARIPPER. A study of vascular changes in skin grafts in mice and their relationship to homograft breakdown. Nine figures	215
RICHARD L. KLEIN. Transmembrane flux of K^{42} in <i>Acanthamoeba</i> sp. Four figures	241
FRANK H. JOHNSON. Kinetics of luminescence in <i>Chaetopterus</i> slime, and the influence of certain factors thereon. Seven figures	259
FRANK H. JOHNSON AND BETSY PLOUGH. The action of DFP and related drugs on bacterial luminescence. Fourteen figures	279
<i>Comments and Communications:</i>	
TIBOR J. GREENWALT AND VALBORG E. AYERS. 2,3-diphosphoglycerate and other intra-erythrocytic acid soluble phosphates in young rabbits. Two figures	307
ROBERT E. KUHLMAN. Species variation in the enzyme content of the corneal epithelium. Two figures	314

No. 3 JUNE 1959

HOWARD JENERICK. The behavior of muscle membrane treated with a trace metal chelating agent. Eight figures	327
ERNEST B. WRIGHT. The subthreshold response of the single crustacean motor axon. Twelve figures	349
KENNETH J. MONTY AND ALEXANDER L. DOUNCE. The histones and lipoproteins of the liver cell nucleus. Three figures	377
BODIL SCHMIDT-NIELSEN, H. V. MURDAUGH, JR., ROBERTA O'DELL AND J. BACSANYI. Urea excretion and diving in the seal (<i>Phoca vitulina</i> L.). Five figures	393
WYNELLE D. THOMPSON AND W. J. WINGO. Comparative enzymatic studies on cells of <i>Tetrahymena pyriformis</i> Y from cultures at two stages of growth: L-glutamic acid dehydrogenase. Two figures	413
CHOH-LUH LI, KING ENGEL AND IGOR KLATZO. Some properties of cultured chick skeletal muscle with particular reference to fibrillation potential. Eleven figures	421
DAVID W. BISHOP AND HARTMUT HOFFMANN-BERLING. Extracted mammalian sperm models. I. Preparation and reactivation with adenosine triphosphate	445
